GMT SERIES
GENERAL MAINTENANCE CRIMP TOOLS

DMC's GMT series crimp tools are connector supplier tools that are well-suited for a variety of standard OEM applications. Each GMT tool features a fixed jaw that is designed for crimping specific components such as stamped and formed contacts, insulated and uninsulated terminals, splices, end caps, and coaxial connectors. Several GMT tools come equipped with an integrated locator designed to secure components in an exact position, ensuring an optimal crimping process. Customers can expect consistently reliable outcomes and an extended operational lifespan.

GMT221

Rockwell Collins Thin-Line I and II
372-2514-080 & 372-2514-010

GMTE221C	BATTERY EQUIVALENT
PMT221	PNEUMATIC EQUIVALENT
SEE ENV. DWG.	GO/NO-GO GAGE

8.8" L x 2.3" W x 0.9" H and 1.2 lbs

Comparable to Collins 359-0697-010 tool

GMT232

M81824 Series Environmental Splices

MIL M22520/37-01

QPL Approved

Suitable for low profile environmental splices between the range of 26-20 (red), 20-16 (blue), and 16-12 (yellow). The tool features a locator affixed to the jaws that holds the splice in place while terminating.

GMTE232C	BATTERY EQUIVALENT
PMT232	PNEUMATIC EQUIVALENT
G411	GO/NO-GO GAGE

8.8" L x 2.3" W x 0.9" H and 1.2 lbs

Comparable to TE AD1377 & AD1375 tool

GMT333

M81824 Series Environmental Splices

MIL M22520/38-02

QPL Approved

The GMT333 is suitable for certain terminals and external power sockets. It is the replacement for the M22520/24 plier crimp tool and the M22520/38-01. When crimping MS20659 terminals use the GMT333 with the GMT337 to form the insulation support.

8.5" L x 2.5" W x 0.5" H and 1.2 lbs

GMTE333C	BATTERY EQUIVALENT
PMT333	PNEUMATIC EQUIVALENT
G1356	GO/NO-GO GAGE

GMT337

MS20659 Uninsulated Terminals
MS25486 Ext. Power Plug Socket

MIL M22520/38-03

QPL Pending

5.2" L x 2" W x 0.7" H and 4.4 lbs

GENERAL MAINTENANCE CRIMP TOOLS

GMT1005

Solistrand Uninsulated Terminals

The GMT1005 is suitable for terminating uninsulated, tin-plated, copper terminals between the range of 22-10 AWG.

GMTE1005C	BATTERY EQUIVALENT
PMT1005	PNEUMATIC EQUIVALENT
G739	22-16 AWG GO/NO-GO GAGE
G740	16-14 AWG GO/NO-GO GAGE
G741	12-10 AWG GO/NO-GO GAGE

8.4" L x 2.5" W x 0.5" H and 12.8 oz

Comparable to TE 49935 tool

GMT1006

Strato-therm Uninsulated Terminals

The GMT1006 is suitable for terminating uninsulated, nickel-plated, copper terminals and uninsulated, nickel terminals between 22-10 AWG.

GMTE1006C	BATTERY EQUIVALENT
PMT1006	PNEUMATIC EQUIVALENT
G327	22-16 AWG GO/NO-GO GAGE
G328	16-14 AWG GO/NO-GO GAGE
G329	12-10 AWG GO/NO-GO GAGE

8.4" L x 2.5" W x 0.5" H and 12.8 oz

Comparable to TE 49935 tool

GMT1090

M81824/12 Environmental Splices

MIL M22520/44-01

QPL Approved

Suitable for cold applied environmental splices between the range of 26-12 AWG. This crimp tool is ideal for applications where a heat source is not allowed. It also features a locator affixed to the jaws that holds the splice in place while terminating.

GMTE1006C	BATTERY EQUIVALENT
G1122	GO/NO-GO GAGE

8.4" L x 2.3" W x 0.5" H and 1.2 lbs

Comparable to TE AD-1381 tool

OPTIMIZED SOLUTIONS

GMTE SERIES

GMTE tools are equivalent to DMC's GMT hand tools with added benefits of portable power and high-tech features. GMT tools capture crimp data that can be displayed on the LED display or downloaded via Bluetooth®.

Includes a carrying case, 2 18 VDC 2.0 Ah Lithium Ion batteries, and one charger. 4.5" L x 2.9" W x 13" H and 3.1 lbs

PMT SERIES

The PMT series pneumatic crimp tools are equivalent to the GMT hand tools. These tools are ideal for high-production environments.

Includes a 9 ft air hose.
